Wyoming is the second-largest city in Kent County, Michigan, with a population of approximately 77,000. Wyoming elects four citywide officials; the mayor and three at-large council members, as well as one council member from each of its three wards. Kent County has shifted from a historically Republican county to a competitive jurisdiction that has favored Democratic candidates in recent federal elections. In the 2024 presidential election, Kamala Harris carried Kent County with approximately 51.8% of the vote, compared to Donald Trump's 46.5%. Wyoming's electorate is more politically competitive than the county as a whole. Precinct-level results from the 2024 presidential election show both Democratic- and Republican-leaning areas within the city, with voting patterns varying by precinct.

April 2020: Duzan Shared A Facebook Post Defending Donald Trump's White House Covid-19 Briefing, Arguing That Media Outlets Had Taken His Remarks About Disinfectants Out Of Context.

Copied from a friend ... BUT I AGREE Wholeheartedly !!!
Don't believe every Media story!! Do your home work!!!

I've seen a lot of things this morning that "Trump suggests we inject or drink disinfectant to kill the virus", so naturally, with my being skeptical of any media, I decided to look up the video from the press conference and hear the words from his mouth. I did a google search. I found 7 or 8 articles on the first page of google from sources like CNN, MSN, Washington Post, and The Hill. Each article title says things like "President Trump suggests injecting Lysol to kill the virus", "The President says to inject disinfect to potential kill the virus". I pulled up the video and listened.

Here is what the president said during the press conference: President Trump was talking about his amazement at how disinfectants like Lysol kill the virus almost instantly. He turned to a scientist and asked if there was a way to do something like that with an injection to kill the virus instantly. He said it would take a large team of medical doctors, and it would take time.

Here's what he did NOT say: He did not tell people to go get disinfectant and inject it. He did not tell people to drink disinfectant. He did not say that it was safe to either inject or drink Lysol.

If you don't believe that the media controls what we read and see, then you are living under a rock. I've never seen somebody's words taken so blatantly out of context, and while I may not agree with everything the man says or does, he does deserve my respect because he is the president of the United States.

I'm not asking for an argument or a debate here. I only want to point out that what President Trump said is not what is being reported. 🙄 BTW, I copied and pasted this. **See less**

Please remember those that have served, are serving and the families who have lost!

Ever wonder why Veterans day is on the 11th and does not change ? World War I ended on the 11th month on the 11th day on the 11th hour.

Today I saw a man selling poppies stop a lady and asked if he could re-position her poppy. While doing so he told that lady she should wear the poppy on their right side; the red represents the blood of all those who gave their lives, the black represents the mourning of those who didn't have their loved ones return home, and the green leaf represents the grass and crops growing and future prosperity after the war destroyed so much. The leaf should be positioned at 11 o'clock to represent the eleventh hour of the eleventh day of the eleventh month, the time that World War I formally ended. He was worried that younger generations wouldn't understand this and his generation wouldn't be around for much longer to teach them. We must remember those from our current wars too!

For those that do not know, the eleventh day of the eleventh month is Veterans Day! I copied this from someone else. Please do the same to pass this knowledge on to those who don't know the meaning and who care enough to know. 🇺🇸
